To Whom it May Concern,

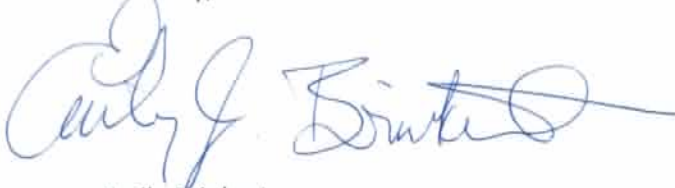

If you are preparing to renovate your office, Ridge Construction & Development Corp. is definitely the company to use. I recently worked with Chris on a very complicated, multi-phase project which was made even more complicated by a flood in the building.

He was extremely professional, unflappable, and diligent in his work. He managed to work around our difficult needs and help us trim costs to stay on target while adding value.

Ultimately, he delivered a fantastic 24,000 sq foot space on time and on budget and he has continued to be available for questions even once the project was completed.

I would certainly use him again.

Sincerely,

Emily Brinkert  
Director of Operations
